How the Experts Treat Hematologic Malignancies

FOCUS

Given the increasing frequency of hematologic malignancies, especially in an aging population, as well as the complexities of individual clinic presentation, there is a need to provide an opportunity for oncologists, hematologists and oncology nurses to engage in a thoughtful examination and discussion with experts in various hematologic cancers. There is also emerging data about the biology of these cancers that underlies modern optimal management of patients with these disorders. The expansion of patient care options in nearly all of these disorders makes decision making more complex.

This two and a half day symposium has been designed by experts in the field of hematologic malignancies and affords the conferee specialized educational tracks for both physicians and nurses, providing an opportunity to learn about the most recent advances in bone marrow transplant, multiple myeloma, lymphoma and leukemia. Updates on improved curative and palliative treatments and evolving molecular and immunologically-based system therapies, as well as important, completed or ongoing clinical trials, will be profiled and discussed.

TARGET AUDIENCE

This educational program is directed toward hematologists, oncologists, pathologists, radiation oncologists, palliative care staff, oncologic nurses and other allied health care team members interested in the treatment of patients with cancer.

OBJECTIVES

- Review the role and timing of hematopoietic cell transplant in the management of younger and older patients.
- Provide an update of new molecular and immunological treatments being developed for these diseases.
- Discuss the rationale for new targeted diagnostic therapeutic strategies for lymphoma, myeloma and leukemia.
- Summarize the evolving therapeutic strategies in the treatment of hematologic malignancies.
- Integrate best practices for prevention, detection and management of side effects related to current therapies.

PHYSICIAN EDUCATIONAL TRACK

THURSDAY, MARCH 16, 2017

7 to 7:55 a.m.	REGISTRATION/BREAKFAST/ VISIT INDUSTRY EXHIBITS
7:55 to 8 a.m.	Welcome and Announcements SESSION: LEUKEMIA
8 to 8:40 a.m.	Acute Lymphoblastic Leukemia <i>Vinod Pullarkat, M.D.</i>
8:40 to 9:20 a.m.	Acute Myeloid Leukemia <i>Guido Marcucci, M.D.</i>
9:20 to 10 a.m.	Chronic Myeloid Leukemia <i>David Snyder, M.D.</i>
10 to 10:40 a.m.	Myelodysplasia and Bone Marrow Failure Syndrome <i>Ryotaro Nakamura, M.D.</i>
10:40 to 11:20 a.m.	Myeloproliferative Disorder <i>David Snyder, M.D.</i>
11:20 a.m. to 12:20 p.m.	LUNCH/VISIT INDUSTRY EXHIBITS
12:20 to 1 p.m.	Acute Promyelocytic Leukemia <i>Margaret O'Donnell, M.D.</i>
