Patient Payments Made Simple

PayGround has partnered with MOASC to enable members to deliver a healthcare specific patient payments platform that simplifies patient collections across the entire revenue cycle. Patients are able to:

- Aggregate all MOASC healthcare bills from across multiple providers into one dashboard to see their financial responsibility
- Pay with multiple payment methods to resolve healthcare responsibility, even provide financial assistance to those needing additional support to pay for their treatment

It's a win-win! Net results for MOASC practices are increased patient satisfaction while increasing patient collections.

Need some proof?

Common results are highlighted below:

23%
