

Dear Flex Program Colleagues,

With the release of the Fiscal Year (FY) 2021 Flex Program Non-Competing Continuation (NCC) Progress Report Instructions, we would like to remind you that TASC is available to review one component of your cooperative agreement progress report prior to your final submission (examples: work plan, narrative, budget, etc.). If you would like assistance, please choose **one** section of your proposal for TASC to review. Please submit your request to tasc@ruralcenter.org by **April 30, 2021** and allow us five business days to review. TASC will respond with comments and suggestions, but we are unable to re-write content for you. We're happy to also talk through with you the suggestions and comments via phone.

Let's keep sharing! Please feel free post your questions in the [Flex Program Forum](#). If you have a question, someone else likely does too and will benefit from seeing the question and answer. For help logging into the Flex Program Forum, please [create an account or reset your password](#).

Resources to support your Flex Program Cooperative Agreement application

[FY 2021 Funding Guidance and Supporting Materials](#)

- NCC Progress Report Program Specific Instructions
- Attachment #3 Flex Quality Improvement (QI) Project Proposal
- **UPDATED!** Flex Program Logic Models: Newly updated from the Federal Office of Rural Health Policy to include a logic model specific to each program area
- FY 2019 - FY 2023 Flex Program Work Plan Template
- NCC Progress Report Technical Assistance Webinar Presentation Slides

Data Sources

- [Flex Monitoring Team State Profiles](#) (state-level outcomes data for the Medicare Beneficiary Quality Improvement Project (MBQIP), Hospital Compare and the Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHPS))
