

Raritan Headwaters Stream Cleanup  
Earth Day, April 22 9:00-11:30 AM

St. Matthias School will once again participate in the Raritan Headwaters Stream Cleanup! The stream which runs behind the school property flows into the Raritan River. Each year volunteers spend a morning cleaning up the grounds around the stream, and the more adventurous volunteers, wade into the stream to gather up trash that has collected on branches and in the water. Each year we compete to find interesting trash and artifacts. We also count how many bags of trash and recycling we can remove from the landscape.

If you are interested in volunteering, you can access the link for the RHA site. They are coordinating the volunteers at the various sites through Central NJ. Their link is <http://e.givesmart.com/events/v0R> Include your name and the names of family members who will join us. No donations are required to participate. Once you are in the site, look for Site #48 - Seeley's Run, that is the name of our stream.

Community service hours will be given to all volunteers.

Please dress in clothes that can get wet and don't mind dirt.

Volunteers under grade 6 must be accompanied by a parent or guardian.

If you have any questions, please contact Miss Allegro.  
Thanks! Hope to see you that morning.
