Government Shutdown Resource List

WASHINGTON, D.C. – On Wednesday, October 1, 2025, the United States Federal Government went into shutdown as Congress could not come to an agreement in order to pass a federal budget or a Continuing Resolution (“CR”). A Government Shutdown requires a majority of federal workers to be furloughed until a budget or CR passes Congress and is signed into law by the President. Only a few workers remain on duty without pay due to being considered essential workers.

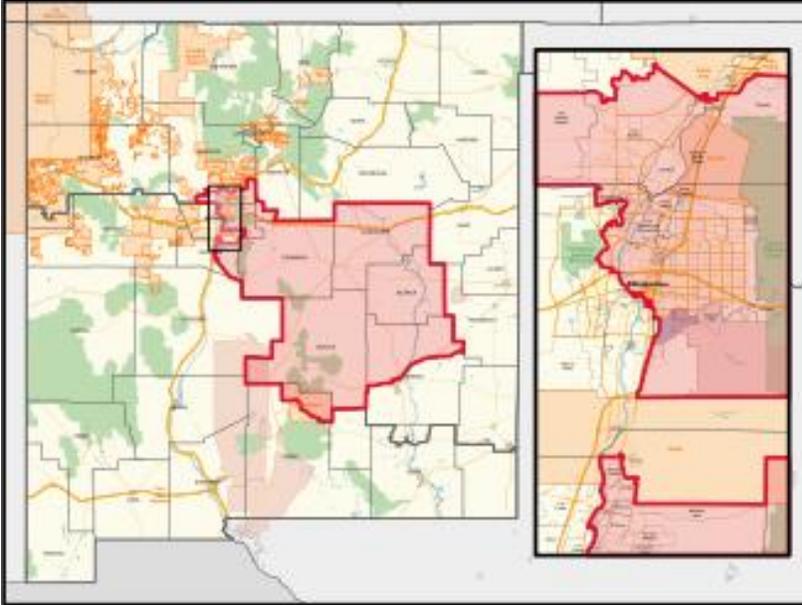

As the Government Shutdown affects everyone, the Navajo Nation Washington Office has collected a Resource Guide for all those affected by the shutdown. You can find it below, categorized by state and district.

For more information about the Navajo Nation Washington Office, please visit www.nnwo.org
