

## More information on Nicholas P. Sullivan and *The Blue Revolution* on May 11

Partners Village Store and Westport River Watershed Alliance will present author Nicholas P. Sullivan for a discussion of his new book ***The Blue Revolution***.

In a fast-growing world where more people are eating more fish than ever before, ***The Blue Revolution*** brings encouraging news for conservationists and seafood lovers about the transformation of an industry historically averse to change, and it presents fresh inspiration for entrepreneurs and investors eager for new opportunities in a blue-green economy.

For the world's oceans, overfishing has been a worrisome problem with few answers. Many of the global fish stocks are at a dangerous tipping point, some spiraling toward extinction. But as older fishing fleets retire and new technologies develop, a better, more sustainable way to farm this popular protein has emerged to profoundly shift the balance.

***The Blue Revolution*** tells the story of the recent transformation of commercial fishing: an encouraging change from maximizing volume through unrestrained wild hunting to maximizing value through controlled harvesting and farming. Entrepreneurs applying newer, smarter technologies are modernizing fisheries in unprecedented ways. In many parts of the world, the seafood on our plates is increasingly the product of smart decisions about ecosystems, waste, efficiency, transparency, and quality.

email [outreach@wrwa.com](mailto:outreach@wrwa.com) to attend the event either by Zoom or in person at the **River Center**.

Books will be available for purchase from Partners Village Store.
