**Understanding the System**

Navigating through the ID and Autism system is difficult and confusing. Waivers are very difficult to understand and yet vital for funding of services and supports. Families need direct straight-forward information about waivers. This session will do just that! We will dismantle the mystery and you will discover the nuts and bolts of accessing services, including:

- How to register for services
- Developing your Individual Support Plan
- The services offered and
- What to do if you have a problem

The session will focus on the Person/Family Directed Supports, Consolidated, Autism Waivers and the new Community Living Waivers. In addition, we will touch on the Adult Autism Waiver briefly to make sure families understand the differences in application and services. This is presented by families – for families.
