

COMMUNITY HEALTH WORKERS AND CHRONIC CONDITIONS TRAINING PROGRAM

The **Community Health Workers and Chronic Conditions Training Program** includes five modules on the importance of self-management, reviews strategies for supporting clients in chronic disease self-management efforts, and provides an overview of specific chronic conditions including high blood pressure/prehypertension and hypertension, prediabetes, diabetes and asthma. <u>After each topic-specific module</u>, a live webinar with a subject matter expert is scheduled to provide additional chronic disease education, share strategies for supporting care coordination, and answer topic-related questions.

To access the modules:

- 1. Visit https://chwtraining.mcdph.org/ and click on the "Register now" box on the home page.
- 2. Complete the required registration form and click "Register now" to create a training account. (**Note**: This program is **FREE** for NY residents. The \$80 Individual Registration Fee will be adjusted to \$0 during the registration process for individuals in NY.) Click "Finish."
- 3. After registering, you will receive an email from "MCD Public Health" that contains your username and password login information. A brief "Welcome" module is available to introduce you to the training. Certificate of Completions are available upon completing the full program.

Module Topic:	Module Topic	Module Description:
Please complete module	Live Webinar:
