

Mobile Recovery Center Addiction Treatment

Let FSL help you on your journey to a better life!

FSL's clinical team includes physicians, registered nurses, and social workers. They offer comprehensive substance abuse and mental health assessments, diagnosis, and medication management in coordination with the development of a treatment plan. Mobile Recovery increases access to treatment by utilizing peer supports, clinical services, and emerging technology to remove barriers which improve individuals' engagement on their road to achieving recovery.

FSL coordinates care with substance abuse treatment providers across Suffolk County.
