

Rock the Block

Brought to life through the cooperative effort of Habitat for Humanity Lakeside and the City of Sheboygan Department of City Development, Rock the Block will be a dynamic event improving the quality of a selected area in Sheboygan, and will take place on Saturday, October 14. Using data collected through neighborhood walks performed by city development staff and police officers, the area in the Franklin Park neighborhood selected to participate in Rock the Block includes homes on Clara Avenue between 10th and 11th Streets, and on 11th Street between Clara and Georgia Avenues.

Rock the Block will organize a large group of volunteers to complete projects on these properties that will make the area more appealing, improving housing standards and pride of place in Franklin Park. Projects will include painting and repairs, landscaping, and increased lighting. Volunteers will work hard and will be rewarded by generous donations of refreshments provided by local businesses. Rock the Block has been a successful program in other Habitat for Humanity locations, and we are excited to see it flourish in Sheboygan.
