

As Halloween and fall come to a close, it is time to dispose of your decorative pumpkins, gourds, cornstalks, and mums. To help divert organic material from the landfill, the Department of Public Works requests that these items be brought to the yard waste area of the Recycling Center for composting. Please remove all the decorations and non-organic material such as candles, candle wax, ribbons and any plastics before dropping off your pumpkins, gourds, cornstalks, and mums. The Recycling Center is located at 2026 New Jersey Avenue and is open 8 a.m. to 6 p.m. Monday through Friday, and 8 a.m. to 4 p.m. on Saturday.
