Celebrating 10 Years OF THE CENTER FOR ELDER ABUSE PREVENTION

The Center for Elder Abuse Prevention at Jewish Senior Services opened in September 2007 to empower victims through safe haven and services, and champion safer communities for older adults. The Center is the first of its kind to serve frail elderly in Connecticut and is made possible through the generosity of donors and our community partners.

Please join us for World Elder Abuse Awareness Day as we recognize and celebrate 10 years of the Center for Elder Abuse Prevention.
