

# SUMMER INTENSIVES

For individuals with motor disabilities

- 15-25 hours/week
- Active learning for every level of ability
- Intensive, holistic approach
- Unique group setting
- Toddler, child, and adult groups

## OUR CAMPS

CFCE summer camps provide intensive Conductive Education therapy (a neurorehabilitative approach that covers therapeutic areas addressed in PT, OT, and SLT) in a fun, motivating peer group. Each day at camp, participants work on gross motor and fine motor skills; increase their flexibility and strength; practice life skills such as dressing, transferring, and eating; and enjoy taking an active part in social activities with their peers in a structured learning environment tailored to their individual goals.

CFCE is beneficial for most individuals with motor disabilities, from those learning to roll and sit up to those learning to walk up the stairs independently.

**Loveland Camps:**  
JULY 10 - AUG 11

**Arvada Camps:**  
MAY 30 - AUG 11
