## What parents are saying

"Knowing my child was working with high quality therapists everyday takes off some of the stress of trying to support my child therapeutically as much as possible."

"We've heard lots of new words from our girl! Whether it is actual sounds she worked on, or just all the new brain connections she made, we're thrilled with the progress!"

"The experience was great. Our child was very happy after each day. We're excited to see if our child's teachers and therapist notice a difference in him."

Adam's Camp is an approved provider (PASA) through most Community Center Boards. For individuals on the SLS or CES waivers, you may be able to use CCB funding for Adam's Camp. Adam's Camp must be approved in the camper's Individual Plan.
