This education series addresses services and supports for youngsters with Intellectual and Developmental Disabilities (IDD). It tutors parents on some of the mysteries of resources available to them, some parents may not be aware of or how to access resources, as well as addressing 504 or IEP concerns, along with a basic overview of the Wrights Law website. At the conclusion of this parents should have an understanding of the child system, from single entry points, to waivers healthcare, private insurance and Medicaid.

IEP training on April 22, 2020 provided by PEAK Parent Center
