

Instructional ABA Consultants offers Early Learning Clinic & In Home Autism & Behavioral Services in Douglas County!

*IABA's clinic based services offered to children 18 months to kindergarten
IABA's home-based therapy serves across the lifespan & diagnoses*

Why applied behavior analysis?

- ✓ Applied Behavior Analysis (ABA) the only evidence-based therapy for children with autism and developmental delays
- ✓ The CDC recommends 20+ a week of ABA for children 18 months to five years old and is effective well past five years of age
- ✓ ABA therapy sets goals to increase your child's quality of life
- ✓ At IABA we guarantee progress every week through data monitoring of goals, all ABA uses data to drive best practice

Instructional ABA Consultants is dedicated to serving across funding sources. In Colorado we accept Medicaid, BCBS/Anthem, Aetna, Cigna, United Healthcare and Humana
