ASCLD LEADERSHIP ACADEMY

REGISTRATION ANNOUNCEMENT

REGISTER NOW for the 6th annual **ASCLD Leadership Academy** to be held in Spring 2019. Twelve weekly, online webinars will be offered from February to May and will cover a wide range of essential leadership topics for forensic science supervisors and managers. The Academy will then finish with two intensive days of on-site, hands-on instruction at the ASCLD symposium in St. Louis Missouri.

The 2019 Academy will again focus on providing quality instruction to new supervisors in the forensic science field and supervisors who have previously had limited opportunity for structured forensic management education and training. Between affordable registration costs and high quality instructors, ASCLD is confident that laboratories will see a valuable return on investment in a time when training budgets are lean across the US.

LEADERSHIP
Instructor: Ben Swanholm   Delivery: 4 online webinars (Feb/March 2019)
Topics include: Transitioning from Peer to Supervisor, Conflict Management, and Leading Change
