

## *Your Cyber Security Partner*

### Who are we?

AdvaSec is a Wisconsin-based company capable of dealing with a range of cyber security issues. We are your Cyber Security Partners.

### OUR FOCUS

Operational Insights and Protecting Your Company's Big Data & Cyber Security

### WHY POULTRY COMPANIES NEED CYBERSECURITY

The vertical structure of the poultry business and producers, egg processors, poultry meat processors, is a big security threat to the operation. This opens up multiple sources for attacks.

### HOW DO WE HELP COMPANIES LIKE YOU

We start by raising the maturity level of your cyber security.

1

We empower your business with automation tools to control human errors and losses.

2

AdvaSec can monitor and protect data from sensors, probes, instruments, and build a mature cyber defense for your company.

3

Not everyone understands the risks involved in these vertical industrial processes the way we do. AdvaSec is perfectly equipped to manage the adequate measures.

Our holistic approach from Industrial Environment to the Back Office enables us to turn the Cybersecurity Infrastructure to an asset for our clients.
