

DJM Insurance has been specializing in commercial insurance for contractors and construction trades for over 20 years. We can provide options for artisan, specialty trades, as well as retail and commercial property. There is almost no trade that we cannot help. Give us a call to assist with General Liability, Workers Compensation, Business Auto, Contractors' Licenses, Performance Bonds and more.

Experience Matters

Founder, Darrin Mroz, has over 25 years in the contracting and construction industry. He was a sheet metal journeyman for eight years working with California Sheet Metal and University Mechanical. Later he became a General Foreman working mostly on large commercial projects throughout San Diego County. Darrin wrapped up his construction career as an estimator.

Darrin's decades of on-the-job experience made the transition into contractor's insurance a seamless one. Armed with the knowledge and understanding of every trade and their individual needs, Darrin has led DJM Insurance to become a leader in the industry.

Darrin is joined by co-founder, Myra Mroz. Together as a team they have grown DJM Insurance by securing a top-notch staff and providing unparalleled customer service.

Community

Darrin and Myra are also active members of the community. Darrin has served on the El Cajon Planning Commission for 13 years and understands the importance of community involvement. He and Myra have been involved with local organizations such as the ECTLC and East County Posse. They have also sponsored Lakeside Little League and food drives for the Salvation Army. They do not just put in the work themselves; they also create a culture of giving back within their company to create more helping hands within the community.
