- ✓ The average answer was **3-4**

42 out of 65

attendees completed feedback forms

Some of the common responses to what the attendees learned included:

- How to recognize an overdose and administer Naloxone
- Suggested language to use when asking about suicidal ideation
- Different forms of trauma, its effects on the brain and how providers can be more trauma informed

Room for improvement comments included:

- Wanting more breaks
- Wanting more time for discussion and interaction
- Wanting more connection between material covered and Commercial Sexual Exploitation
- A mismatch of the description of the conference and the content received at the conference
