

# PROVIDING PEACE OF MIND FOR YOUR BUSINESS

## PREVENTATIVE AND DECONTAMINATION SERVICES

Covid-19 has put a pause in your business. Let us help you get your doors back open.

Our OSHA certified AdvantaClean professionals will arrive on-site to perform your sanitization service wearing proper safety gear, including the appropriate PPE and respirator masks. The AdvantaClean team employ cleaning protocols that have been vetted by hygienists from around the country and reflect the most effective virus neutralization and removal. As needs evolve, and we learn more from the CDC and others, our protocols are modified to reflect the current best practices.

### PREVENTATIVE CLEANING

(in areas with no known exposure to the virus)  
Includes sanitization and mechanical cleaning of horizontal surfaces and common touchpoints with microfiber cloths and an EPA-approved disinfectant.  
Fogging of the work area volume with an EPA-approved disinfectant

### DECONTAMINATION

(in areas with known/suspected exposure to the virus)  
Fogging of EPA-approved disinfectant through the duct system  
Fogging of the work area volume with an EPA-approved disinfectant to force airborne contaminants to settle on flat surfaces  
Sanitization and mechanical cleaning included in the Preventative service

## Sanitizing Promotion

**1000 – 3000 square feet ~~\$1620~~ → \$900**  
**3000 – 4000 square feet ~~\$1800~~ → \$1000**  
**4000 – 5000 square feet ~~\$2250~~ → \$1250**  
**5000 – 6000 square feet ~~\$2700~~ → \$1500**

NOTE: For services, the quality and “life” of the cleaning is only as good/long as the time to the next exposure. There are no known methods to test for the presence of the virus on surfaces. Preventative Cleaning Services Only. Decontamination priced on per case basis

**AdvantaClean of the Twin Cities East Metro**
