

West Sandy Creek Winery

Thanks to **West Sandy Creek Winery** for hosting and sponsoring our May BASH (Business Associates Social Hour). Nestled at the edge of the Sam Houston National Forest near Huntsville, Texas, is West Sandy Creek Winery. A family-owned and operated business, it was founded on a decades-long love of wine and winemaking.

The winery harvests its own grapes on vineyards that stretch across the property. It also features the winery and a tasting room, where visitors can sample a selection of award-winning wines. Quaint cabins with all the comforts of home dot the winery, giving guests a much-needed respite from the hustle and bustle of the city.

A family-friendly place to spend a weekend, the winery is home to several horses, cows, chickens, dogs, and two zebronkeys. Offering a unique blend of wine and nature, West Sandy Creek Winery offers an ideal setting for weddings and other events. Local musicians provide live entertainment on the weekends, making West Sandy Creek the perfect escape.
