

Sarahi Gutierrez, Open Door Student

- **How many classes have you taken With Open Door**

I have taken five classes with Open Door, three grammar classes, and two pronunciation classes.

- **Reflect on a moment or event with Open Door that is especially memorable to you**

Open Door, more than an English school, is a place where you make friends. I made an excellent connection with my teachers and classmates. I will never forget when I started the first grammar class with Barbara back in 2016. She provided us many valuable grammar tools that I still use for my job and day-to-day life.

- **How has Open Door Helped You**

Before taking classes with Open Door, I wasn't confident to write an email or essay or speak in front of other people. Therefore, I limited myself to apply for a better position. After taking many classes, I went ahead and applied. As a result, I got Human Resources position within the same company that I started in a shallow position

- **What would you recommend to a student who is new to Open Door**

I would recommend to the new students to be persistent and don't give up on any class. Also, keep in mind that just one hour of class won't make a difference. It will help if you practice the knowledge you are acquiring in your day-to-day life.

- **Give three words that describe Open Door**

Friendship

Education

Empathy
