IHMS PARENT TECHNOLOGY INFORMATION

CANVAS

Go to
bit.ly/IHcanvasparent
to access information for parents on joining and using Canvas

Canvas is our learning management system for grades 6-12. Observer (parent) accounts for Canvas can be created to be connected to the courses your child sees in their student account. Each course's homepage features a week-at-a-glance that gives an overview of what is happening in the course that week. Parent accounts have more limited permissions than students, but have items like grades where assignment feedback can be viewed and a calendar of due dates that can help parents support learning at home.

Chromebooks are provided for students to bring between home and school. Please help remind your student to charge theirs each night (they shouldn't need to bring their cord to school if they charge at home overnight).

If you have additional questions, please contact Mrs. Dillon or Mrs. Moore at the front office.
