there's
something
science
can do.

UPCOMING REQUEST
FOR PROPOSALS

Developing Medicines through Open Science

The Developing Medicines through Open Science Program will offer a total of 5M\$ in funding and partnership opportunities

Our goals

-  Foster collaborative drug discovery and development for orphan diseases
-  Support projects that undertake preclinical research
-  Establish a proof-of-concept for an open science approach to drug development
-  Support economic activity in Canada, particularly benefiting SMEs
