

## Join Burlingame's Citywide Annual Drill

All Burlingame residents are invited to participate in our city's fifth annual **Citywide Emergency Drill** on **Saturday, October 14**, from 9 to 10:30 a.m. You'll learn how to protect your family, work together with neighbors and support one another following a disaster, when professional help may not be available for 72 hours or longer. You'll also discover how to communicate with Ham radio operators who can forward your requests to the city's Emergency Operations Center and relay important emergency info to your neighborhood group.

This exercise is supported by the **Central County Fire Department**, the **Burlingame Police Department**, **Burlingame CERTs** and local **HAM radio operators**. It will take place on multiple blocks throughout Burlingame. There are active roles for adults and children 10 and older. More info at <http://thebnn.us>

If you are interested in participating in the drill, please email us at [info@theneighborhoodnetwork.org](mailto:info@theneighborhoodnetwork.org) and include your street address.
