

*West Chester University Partners Recognized, continued...*

The Commissioners' Proclamation noted West Chester University's commitment to the mental health and wellbeing of its campus community, as well as the greater Chester County community. With mental health treatment services, educational programs and outreach for events aimed at enhancing wellbeing, the university has become an active and important partner for Chester County's Department of Mental Health/Intellectual Disabilities (MHIDD). This collaborative approach is having a lasting, positive impact on West Chester University students and all Chester County residents.
