

Once again, the Association for Fire Ecology and International Association of Wildland Fire will join forces to bring you an enlightening and innovative event! This not to be missed event will be held on the beautiful University campus in Missoula, Montana the week of May 21 - 24, 2018.

Wildland fire science and management are defined by continuums, The Fire Continuum Conference will take you on a journey from science and management activities that take place before a wildfire occurs through the post fire activities and fire ecology.
