Commissioner's Medical Grand Rounds

The Science of Aging and Alzheimer's

Friday, December 14th, 2018, 2:30-4:30pm
Brass Chandelier Room
Monroe Community Hospital
435 East Henrietta Road, Rochester, NY 14620

A growing segment of the New York State population is impacted by Alzheimer's disease but gaps in clinical care remain, particularly around early diagnosis and entry into care. There are numerous benefits to an early diagnosis and quality care management across disease progression.

This session offers clinicians information from leading New York State experts on best practices for diagnosis, care management, and referral to community support, along with the latest trends in dementia research.

The Grand Rounds Program is free of charge for all providers in NYS. Advance registration is requested.

Please click [HERE](#) to register to attend in-person or via the live webinar.

Registration ID is not required. Select "Not registered yet? Click here to register."

A recording of this session will be available for viewing on the NYSDOH website.
