

# Little Library

There are two Little Libraries at the church. One is located at the east entrance and is available for the Wild Plum students and parents. The other one is on the south side of the church next to the driveway entrance.

These libraries are available for the use of anyone including our Kitely neighbors and church members..

Members of the church are also invited to place books for adults and children in the libraries. Children's books are especially requested in both English and Spanish. We ask that the books be in fair to good condition.

Besides books there are also non-perishable food items and individual sized hygiene products. Those items can also be placed in the libraries.

This is an easy way for us to serve our community. The director of Wild Plum said that the kids are super excited when they can take a book.

People in the neighborhood also appear to be enjoying the books.

Just one of the ways we are putting more of God's love into the world.
