**TEXAN STRONG:** 29,000 MASKS TO RURAL TEXAS HOSPITALS

MAY 11

Medical Bridges has donated over 29,000 masks to 65 clinics and charitable hospitals from the Texas Medical Center and the San Jose Clinic to small clinics in rural Texas, to an assisted living center, and to Precinct 1 Constables who were without masks to do their community safety work.

Medical Bridges, as an essential healthcare business, continues to provide masks and other PPE to keep doctors, nurses and healthcare workers safe and to allow rural hospitals to stay open to serve their communities now when the need is great. Medical Bridges has been bearing all the costs for these donations.

Your donation today means masks and other PPE will support our healthcare heroes. You can help today with your special gift to support Medical Bridges’ work here and throughout Texas by making your donation at [www.medicalbridges.org](http://www.medicalbridges.org).

---

**GLOBAL CRISIS:** 44 TONS DONATED TO THE DEVELOPING WORLD

MAY 1

Medical Bridges supports our neighbors in Texas and continues its international mission by shipping 44 tons of desperately needed medical equipment and supplies to the developing world.

As we continue to flatten the curve, COVID-19 has taken a toll on weak healthcare systems around the world. These countries do not have access to the abundant medical resources we have at home and often find themselves reusing one use disposable items such as gloves.

To help save the lives of the less fortunate, please make a gift [here](http://www.medicalbridges.org).

---

**DONATE SURPLUS:** DONATE YOUR SURPLUS MEDICAL EQUIPMENT OR SUPPLIES

MAY 19

Hospitals, doctors, dentists and schools now have surpluses in some areas they may not have had surpluses before, and some items that have been in short supply will eventually be overstocked.

Medical Bridges would value all the surplus: equipment, unexpired supplies that still have a meaningful life, beds and furniture, surgical instruments that were laid out for surgery but then not used, anything but drugs and pharmaceuticals.

You can rely on us to pick up the equipment and supplies promptly. Our professional drivers follow CDC guidelines, practice good hygiene and wear masks when at your premises.

To donate, please call or email Marcel Benavides at mbenavides@medicalbridges.org and (713) 766-6554.
