French Immersion programming

PRESENTED BY LAURA JEGUES, DISTRICT VICE-PRINCIPAL OF FRENCH IMMERSION

1

Goal of French Immersion:

- ▶ The major goal of French Immersion is to provide the opportunity for non-francophone students to become bilingual in English and French. Bilingualism is achieved by providing instruction of the basic curriculum entirely in French during the first years. Once a firm base in French has been established, instruction in English language arts is added, and instruction in the English language gradually increases. Students continue to receive instruction in certain subjects in French so that proficiency is achieved in both languages by the end of Grade 12.
