a series on
CYBERSECURITY AND TECHNOLOGY FUTURES

Sponsored by University of Washington's
Henry M. Jackson School of International Studies,
Information School, and Women's Center
with support from Carnegie Corporation of New York

Join us for engaging discussions with leaders from business, government, and academia on the latest developments in cybersecurity and technology, including privacy, systemic risk, artificial intelligence, international threats, state and homeland security, and crisis management and informatics.

Enjoy an opportunity to network with speakers and colleagues at the conclusion of each lecture. All are welcome!

2019 Winter and Spring Quarters
Wednesdays from 3:00-4:30pm
Petersen Room, Allen Library, 4th Floor, Room 485
University of Washington
