Look What We Learned

Math

We continued our studies on volume and applied what we've learned through problem-solving activities. At the end of the week, students completed ILEARN Checkpoint 1 in both Math and ELA, and we are so proud of their effort and determination!

Reading

Our novel study continued as we began exploring theme. Students are learning how an author's message or lesson can be discovered through characters' actions and story events.

ELA

We continued prewriting for our upcoming narrative stories, focusing on organizing clear beginnings, middles, and ends. Students are laying the groundwork for some creative writing ahead!

Religion

This week, 5M practiced for the school Mass that our class led. The students showed reverence, teamwork, and joy in preparing to share their faith with the school community.

Science

We continued learning about the properties of matter. Students are developing a stronger understanding of how different materials can be described and compared based on their observable characteristics.

Important Dates

- **10/24- PFA Chili Supper**
- **10/29- Home Learning Day / Parent Teacher Conferences**
- **11/3-11/7- Disability Awareness Week**

Reminders

- **October 31st : Halloween Reminder**
Students are welcome to come to school in costume, but costumes should be school-appropriate, easy to manage, and allow students to fully participate in their regular school activities throughout the day. Please avoid any costumes that could cause distractions or make movement difficult.
