Mrs. Cuniffe's Classroom News!

May 5th-9th

What A Week

What a great beach week it has been. We learned about sharks and how they have sooooo many teeth. Star Fish don't even have eyes. We pretended to "swim" in the ocean and did some "fishing".

Wednesday was the hit of the week!! So very thankful our moms were able to come and experience pre-K with us. Thank you, Moms, for taking the time to be with us. We hope you enjoyed it. As you can tell from your gifts everyone was working hard over the past few weeks to make it just perfect. Sorry if we were a little off on your age- or what you like to do. The things our kids say are just wonderful.

One week left- WOW how did we get here?

We will end the week with some fun days!

Monday- Bike Day- please read the bike day details on the back.

Friday- Field Day- with a 12:45 dismissal and NO EXTENDED care. Again, see the back for more details.

The other days of the week we will be revisiting our favorite things from the year.

Highlights for the week

Monday- we read Smiley Shark, we made a shark, we played at the "beach", explored sharks in water, colored a shark.

Tuesday- we read Starfish, glued sequence to make a sparkly star fish, went fishing to catch letters, build with connectors, and "swam" in the ocean.

Wednesday- we read with our moms at our Mother's Day celebrations, sang with Ms. Michelle for the last time, road bikes, and celebrated our moms.

Thursday- we read Who Sank The Boat, made a boat, explored sink and float with real things, counted when rolling dice, explored the pirate ships (boats)

Friday- we read Beach Day, made our very own beach bottle, made a shell necklace, visited with our 3rd grade buddies- for the last time....
