Look What We Learned

Math

We began Topic 1.1, exploring patterns with exponents and powers of ten. We will continue working in this topic before moving into place value. Consistent practice with math facts at home will also remain important.

Reading

This week, we completed an author study on C.S. Lewis and learned some background history to set the scene for our upcoming novel study, *The Lion, the Witch, and the Wardrobe*. The students are eager to begin reading!

ELA

We continued Unit 1 vocabulary studies and reviewed the four types of sentences. Students practiced applying these skills in their writing and classroom activities.

Religion

Our focus was on the mystery of the Blessed Trinity. The students impressed me with their thoughtfulness and enthusiasm as we explored this important foundation of our faith.

Science

For science, we are continuing the engineering process and doing hands on activities to use this process ourselves.

Important Dates

- **8/27- Picture Day!**
- **9/1- Labor Day- No School**
- **9/10- 1pm Dismissal**
