Look What We Learned

Math

We worked on angle name projects, and I am so impressed with the results! These projects were a creative way for students to demonstrate their understanding of identifying and naming angles.

Reading

We continued reading Hatchet and are eagerly anticipating what will happen to Brian next. Students remain engaged and invested in his journey.

ELA

We continued analyzing poetry, exploring different elements and types of poems. Students are growing in their appreciation for how language can be used creatively. We were introduced to Unit 8 Vocabulary words.

Religion

We are learning about what happened to the apostles after Christ's Resurrection, including Pentecost, the birthday of the Church. Students are making meaningful connections to the early Church.

Science

We are continuing our studies about the layers of Earth's atmosphere, exploring how each layer plays an important role in protecting and supporting life on Earth.

Important Dates

- **5/13- Band Info Meeting (@6pm in Community Room)**
- **5/15- Field Day (1pm dismissal)**
- **5/20- Q4 Honor Roll Mass**
