

The Sheehan Scoop

Friday, May 8, 2026

Language Arts: We continued reading Lunch Money by Andrew Clements. The students continue to answer book questions in complete sentence format which are fourth grade expectations. Please encourage this with the homework, students are asked to redo questions if the answers are not complete. This book will take us to the end of the school year.

Spelling is complete for the year! 😊

Math: This week we started Unit 13: Describe and Analyze 2D Shapes. This is a super short unit with only 3 lessons! I'm planning on using short quizzes to assess this unit. ***Please put the multiplication and division flashcards to use!**

Social Studies: In Social Studies, students have been working hard on their state travel brochures featuring states they have either traveled to or would like to visit. Their brochures are filled with fun and interesting facts, famous landmarks, places to visit, and exciting things to do! Students have enjoyed researching and learning more about different states across the country. As we wrap up Social Studies for the year, students will continue practicing important skills through small morning work assignments. If you have any social studies questions, please email Ms. Jack at tjack@saintmatt.org.

Science: Students are finishing Rocks and Mineral studies through a "Birthstone Brochure" project done during class. Our remaining time in science will be individual/ partner projects completed during class about natural disasters. Students will research and present their findings.

Religion: We will finish up Religion with small morning work assignments in homeroom classes. All students **SHOULD** have said their May prayer, if not, Monday will be the last day! If you have any further questions, please contact me. msheehan@saintmatt.org.

****Our school family attends Mass most Wednesdays beginning at 8:30am! ****
