Look What We Learned

Math

We continued our work with place value and introduced decimal place value. Students are practicing reading, writing, and comparing numbers with decimals.

Reading

This week we officially began our novel, *The Lion, the Witch, and the Wardrobe*! Alongside our reading, we reviewed story elements—characters, setting, plot, and theme—to help us better understand and discuss the text.

ELA

Spelling was introduced this week, and students began practicing their first list of words. We also continued building vocabulary, which the students were quizzed on at the end of the week.

Religion

We read from the Book of Genesis and reflected on the Creation story. Students shared thoughtful insights on God's design for the world and our role as caretakers of His creation.

Science

In our engineering unit, students worked on improving their balloon cars using the engineering design process. They showed creativity and problem-solving skills as they tested and redesigned their models.

Important Dates

- **9/1- Labor Day- No School**
- **9/10- 1pm Dismissal**
- **9/17- Feast of Saint Matthew**
- **9/18-9/19- No School**

Reminders

- Volunteer for Library:
<https://www.signupgenius.com/go/9040e45aca828a02-smslibrary#/>
