COME FLY WITH US

A LIFETIME OF OPPORTUNITIES WITH CAP

Many of our nation's astronauts, pilots, engineers, and scientists began their journeys through Civil Air Patrol. The leadership, confidence, and discipline gained as a cadet can shape a lifetime of success. Whether you're a youth ready to soar, an adult eager to serve in the air or on the ground, or an educator looking to inspire—CAP offers unique opportunities to fly, mentor, support missions, and make a lasting difference.
