Total Due: _____

Deposit: \$100

Amount Enclosed: _____

The two-floor Conference Center has 38 beds in 15 rooms. All of the rooms have private bathrooms. Room size varies with 1 to 5 beds per room.

Our Village cabins come in 3 configurations. The large and small styles offer a private bathroom, a comfortable sitting room and a hospitality station with sink, coffee maker, small refrigerator and microwave. The single story units (4 total) sleep 2 to 4 people. The two story units (2 total) sleep 8 to 10 people with bedrooms on the second floor. The most recent additions to the Village are 3 units that are hotel room - style, with a private bathroom and sleeping accommodations for 2 to 4 people.

The Staff House is situated on the lakeshore and features beautiful views of the lake, common bathrooms on each floor, a combination of single beds and bunk beds in 5 rooms with a capacity of 26 guests, and basic amenities like a coffee maker, a refrigerator, and a microwave.

The Retreat Lodge is nestled in the woods and has 2 good sized bunk rooms and "the Middle Room" that has just one bunk. The Lodge has a sleeping capacity of 22 people and offers a large living room gathering space, common bathrooms, and a full kitchen.

We have eight heated cabins that sleep up to 10 people. These cabins are great for a family or for youth groups. The cabins have bunk beds and share common bathrooms.

Campsites – seasonal
