

MATH OLYMPIAD CLUB

Looking for math enrichment for your motivated 4th or 5th grader? Look no further! The nationally recognized Math Olympiad program is back at Kingsley this year.

Students will be taught problem solving strategies working either in small groups or on their own. They will be asked to solve challenging problems to develop mathematical creativity. They will also participate in monthly Math Olympiad contests. The class will be led by parent volunteers: Juchien Hsu, Karen Smilowitz/Dave Corr and Randy Berry/John Kim. (Other parents are welcomed to help!)

Classes will be held on Tuesday mornings 8:00 – 8:50, October 29 – mid March. We are requesting a \$20 fee per child to cover the costs of materials, due at the first session. PTA scholarships are available.

Please contact Juchien Hsu at juchienh@yahoo.com with any questions or to register your child in the program. 20 spots are available on a first-come first-served basis. Please provide the following information when you register:

Student's Name
Student's Grade
Parent's Name
Parent's email
Phone number(s)
Student's known food allergies
If you need a scholarship
