

FREE for those who qualify!

User Experience/User Interface (UX/UI) Design Bootcamp

Learn about how design impacts the way we see and interact with the world. Launch a lucrative career creating impactful designs for websites, products, and more!

This program teaches traditional design, user experience design, user research, and user interface design, which can be applied to software development and website design.

Average salaries for UX/UI designers are \$70K or more.

What participants are saying:

"During my time in the UX/UI Bootcamp we covered a wide range of topics including (but not limited to) design elements, color theory, information architecture, research methods for User Experience, systems thinking, and how to pitch my ideas to employers.

The support from the Deep Dive community has been tremendous, and helped me in my pursuit of working in tech."

- Andrew Martinez

To qualify, you must:

- Must reside in rural New Mexico, Texas, or Oklahoma.
- Be between ages 18-29.

October 11 – February 12, 2022
Skipping holiday weeks
