"The JA programs we know and love are now available in the virtual setting!"

Due to the recommendations from NMPED for the 2020-2021 School Year, JA of NM will be offering our traditional **K-12 Programs virtually!** These turnkey VCGs are **volunteer-taught** via e-learning platforms! Volunteers are trained by JA staff to support New Mexico Educators by providing **easy access to robust, standard aligned, virtual content.**

JA Staff would be happy to provide training for teachers as well!
