

### ECAS Nicole Tyrell

Emergency Communications Assistant Supervisor Nicole Tyrell is being nominated for her outstanding service and dedication to the Department and effective leadership.

During the past quarter, ECAS Tyrell has demonstrated her ability to effectively manage and lead her platoon largely on her own while ECAS Flowers has been assigned to the Training Unit. This has required extra time and effort on her part, however she always ensures her work is done well, completed early, and has never once complained about the additional workload. Throughout this time, ECAS Tyrell ensured that each member of B-Platoon received the individual attention they needed from their supervisor while handling all of her assigned responsibilities.

Additionally, as the primary supervisor responsible for the Department's Incident Dispatch Team (IDT) ECAS Tyrell has worked tirelessly with the Department and our partner agencies to ensure that communications for special events run smoothly. 2020 Lobby Day, NRA Day, and a presidential candidate

rally are a few examples of the events ECAS Tyrell has worked on during the quarter. This additional responsibility often requires her to work events or attend meetings – some of which occur with very little notice – on her days off. Again, ECAS Tyrell always puts forth her best effort without complaining. Her effective direction to the IDT and assistance to our partner agencies have proved to be invaluable during these special events. Additionally, she always represents our department in an exemplary manner while carrying out her IDT responsibilities.
