

ECO TishLara Jarvis

Emergency Communications Officer (ECO) TishLara Jarvis has been with the Department since January 3, 2023. Since she has joined the operations floor, she has approached OJT with an ambitious attitude and willingness to learn. Shortly after joining D platoon in March, ECO Jarvis' performance has improved rapidly. She has earned four high compliance calls in Pro QA (including a random gunfire call and a Structure Fire). At times, she has been one of the few call takers during periods of heavy call volume. She always brings a positive attitude and is very receptive when receiving assistance/feedback. ECO Jarvis is proactive and prompt; she even reports to the operation floor early to relieve her cohorts, and was also one of the first to complete a required Priority Dispatch training

for the month. She has been eager to train on the police radio this month and she has become a reliable, thorough addition to D platoon and its strength/work culture. Tish contributes to a work environment that makes her colleagues want to

come to work and put in an elaborate effort to serve the citizens and first responders of Richmond.

I highly recommend that Emergency Communications Officer TishLara Jarvis be considered for Emergency Communications Officer of the Month for April 2023. She has been a great addition to our department and has been nothing short of a reliable, trustworthy member of the Department of Emergency Communications, Preparedness & Response.
