Additional WEDA Priorities

2021 LEGISLATIVE REQUESTS:

- ▶ **Workforce Development:** In a global economy, human capital is an essential ingredient that drives business innovation, growth and competitiveness. WEDA supports Washington's 12 Local Workforce Development Boards who apply an equity lens to meeting talent pipeline needs with innovative, data-driven solutions. Local Boards leverage resources to provide a quality workforce including the Job Skills Program, Customized Training, Apprenticeships, One-Stop WorkSource Centers, career connected learning and recovery-related reskilling. WEDA also supports the preservation of state funding for Washington's community colleges and public four-year universities. Maintaining investments in postsecondary education and producing a highly skilled workforce is vital for the economic development of our state. Washington State's nationally ranked talent starts with strong early learning, a robust K-12 system and completion with credentials from the State's top-quality educational institutions and internationally-recognized research universities. We face severe childcare capacity gaps that must be addressed to support early child development and working parents. Our education systems cannot be taken for granted and need sustainable funding and support. **Results: \$400M Fair Start preschool/\$528M child care; \$33B K-12 - up \$4B; new higher ed investments**
- ▶ **Housing Affordability & Supply:** WEDA will support legislation to improve housing affordability and expand opportunities for housing at all income levels, particularly workforce housing.
- ▶ **Clean/Green Economy:** WEDA will support programs and funding to create jobs in the Clean Economy, while also maintaining a balanced approach.
- ▶ **Rulemaking:** WEDA supports permit streamlining/efficiency initiatives that increase predictability in development.
