

FY26 Interim Housing Portfolio Transition: Action Required

Beginning July 1, 2026, the Interim Housing Portfolio will transition to joint oversight by LA County HSH and LAHSA, with all HSH Tier 1 Interim Housing programs continuing to use the HMIS Inventory Module.

To ensure a smooth transition and avoid service disruptions, providers must review their project's renewal status and complete the required application actions.

Review Your Project Transition Category

Each Interim Housing project has been assigned to one of six transition categories:

- A. No Action – Funding continues under LAHSA
- B. No Action – Funding source transfers to HSH
- C. Closing July 1st
- D. Transferring Projects
- E. New Project Starting
- F. Braided Funding – Funding from both City and County continues in separate projects

A complete list of projects and their assigned transition category can be found on the [FY2026 IH Portfolio List](#).

Provider Actions Required by Transition Category

A. No Action – Funding Continues Under LAHSA

No action is required. Programs will continue operating in HMIS as they do today.

B. No Action – Funding Transfers to HSH

No action is required. HMIS Administrators will update the funding source associated with the project. Providers should continue normal HMIS operations.

C. Closing July 1

Providers must:

1. Complete all known participant exit information before July 1, 2026.
2. Review active enrollments to ensure participant records are current and accurate.
3. Coordinate with LAHSA regarding any unresolved enrollment concerns before project closure by submitting a support ticket.
4. On July 1, HMIS Administrators will bulk exit all active participants and begin closure protocols for the project.

Los Angeles HOMELESS SERVICES AUTHORITY

To drive the collaborative strategic vision to create solutions for the crisis of homelessness grounded in hope, compassion, and community.

D. Transferring Projects

HMIS Administrators will create a new project in HMIS that is undergoing changes in either the operating agency or CoC on July 1st.

Providers Must:

1. For projects that are transferring to another agency, the prior agency's clients will be bulk exited by the LAHSA HMIS team on July 1st to an ES exit destination. The new agency will need to enroll the active participants into the new program.
2. For projects that are transferring to another CoC (such as Long Beach), the existing programs will be bulk exited by the LAHSA HMIS team on July 1st to an ES exit destination. The other CoC HMIS admins will create a new program where the active clients will need to be enrolled into going forward.

E. New Project Starting

Projects that are newly operating starting July 1st will be set up and ready for entry on July 1st.

Providers Must:

1. On July 1st, begin enrollment of participants.

F. Braided Funding Projects

Projects that are braided funding will continue to receive funding from both City and County. These projects will be separated based on the funding source in HMIS. City funded units/beds will remain in the existing project in HMIS. While County funded units/beds will have new projects set up in HMIS.

The naming nomenclature for these projects will have the grant administrator to ensure there is no confusion when assigning clients as follows: **"IH – population - site name - grant administrator."** For example, a braided funding project that was originally named H - Family - FSC Family Shelter SPA 6, will now have two projects names as follow:

- IH - Family - FSC Family Shelter SPA 6 – HSH
- IH - Family - FSC Family Shelter SPA 6 – LAHSA

All active participants supported by county funds will be bulk exited from the existing HMIS project on July 1st; providers must enroll into the new project in **HMIS**.

Providers must:

1. Complete all known participants' exit information before July 1, 2026.
2. Review active enrollments to ensure participant records are current and accurate.
3. On July 1, HMIS Administrators will bulk exit all active participants from County-funded beds with an ES exit destination.

Los Angeles HOMELESS SERVICES AUTHORITY

To drive the collaborative strategic vision to create solutions for the crisis of homelessness grounded in hope, compassion, and community.

4. Beginning July 1, providers should enroll County-funded participants into the new County-funded “HSH” administered project in HMIS using a Project Start Date of July 1, 2026.
5. Verify participant enrollment and bed assignments after transition.
6. Continue serving City-funded participants within the existing project. On July 1st, 2026, HMIS Administrators will update the program name to reflect City-funded “LAHSA” administered beds.

Register for a Provider-Focused Webinar

LAHSA and HSH will host a live webinar to review the FY 2026 Interim Housing Portfolio.

- **Provider FY2026 IH Portfolio – Tier I IH Transitions and Timelines**
 - Tuesday June 30 | 10:00 am – 12:00 pm [Registration Link](#)

Attend Office Hours

LAHSA and HSH will be offering joint office hours to support your teams throughout this process. Please see the schedule below for session details. Advanced registration is not required.

- **Extra IH Portfolio Transition Office Hours**
 - Tuesdays 2:00 – 3:00 PM: [Registration Link](#)
- **Regular HMIS & Data Office Hours**
 - Thursdays 2:00 - 3:00 PM: [Registration Link](#)

We appreciate your partnership and look forward to supporting you through this transition.

Team LAHSA & Team HSH
