

APRIL

THIS MONTH'S THEME: APRIL SHOWERS

In the spring, rain showers help fruits and veggies grow by providing them with important nutrients and keeping the soil moist. The spring is also a great time to try planting your own garden! All you need are some seeds, soil, water, and sunshine!

That's why we see so many delicious fruits and veggies starting to grow and ripen during this time. So, the next time it rains, remember how important it is for the foods we love to grow big and strong!

This week's specialty options

Papaya, Mango, Pineapple Cup, 2oz
