Petitioning to Prime Minister of India

**Allow Diaspora Indians and PIO/OCI card holders to deposit or
exchange demonetized notes**

PETITION: Request to treat Diaspora Indians with Foreign citizenship, PIO and OCI card holders as NRIs for depositing old Rs 500 and Rs 1000 Notes

Hon. Shri Narendra Modi
Prime Minister of INDIA
New Delhi, INDIA

Hon. Prime Minister:

Global Organization of People Indian Origin (www.gopio.net) fully supports demonetization of the higher end Indian currencies so as to curtail black money and terrorism funding.

However, Global Organisation of People of Indian Origin (GOPIO) requests that:

1. Diaspora Indians with Foreign Citizenship, and PIO and OCI card holders be given the same opportunity for depositing old and obsolete currency notes as given to NRIs (Indian Passport holders), allowing them to deposit up to Rs. 250,000 of Indian currency in the Reserve Bank of India instead of notified amount of Rs. 25,000;

2. some of the NRIs, and PIO and OCI card holders have old currency notes safely kept in their residences in India for reasons such as education of their children in India, supporting old age parents, helping family members, etc., so allow RBI and Banks having NRO accounts to accept the old currency notes up to Rs. 2,50,000;

3. (as it may not be practical on account of job situation or other reasons), Diaspora Indians with Foreign Citizenship, and PIO and OCI card holders are not able to visit India and hence be permitted to deposit in their bank account in India through an authorized agent, the amount certified by the foreign branches of State Bank of India or Indian Missions in the country of their residence or in RBI / NRO accounts with various banks in India.

Finally, since all Diaspora Indians with Foreign Citizenship, PIO and OCI card holders may not be able to visit India prior to June 30, 2017, they should be allowed to deposit old currency notes at either the Reserve Bank of India/NRO Accounts maintained with various banks in India up to December 31, 2017.

Sir, you have repeatedly acknowledged the role of NRIs/PIOs and expatriates in the resurgence of India and their record annual remittances to India which is the highest compared to any country in the world. We urge you to agree to the requested concession for goodwill of thirty million NRIs and PIOs and amend the Notification # RBI/2016-17/2005/DCM/(Plg) No 2170/10.27.00/2016-17 dated 31st December, 2016

I fully endorse and support this appeal.

Reason for signing

My wife and I visited R.B.I., New Delhi on January 10, 2017, waited in line at the gate of the premises for about an hour, only to be told rudely by the security guards that we would not be allowed to come in because we did not have Indian passport (we hold US passports and OCI cards). We could not even speak to an authorized representative of the bank. It was a humiliating, wasteful experience. We felt grossly misled and cheated with information that kept changing frequently and depended on which authority we talked to. It has left us disgusted, confused and with no further direction about what to do with our legitimate, hard earned Indian currency. We very much appreciate GOPIO's efforts in finding a reasonable solution to this artificially created problem.

Arjun Modi

Venice, CA

Reason for signing

I am signing this because I am a hard working OCI holder, who has paid all required taxes, on time, and to Indian as well as United States government. I should be given a chance to deposit my Rs. 500, and Rs. 1,000 notes as they are hard earned, and LEGAL "WHITE" money. My OCI card states in clear writing that OCI card holders have "Parity with NRIs (Non-Resident Indians) in financial, economic and educational fields EXCEPT in relation to acquisition of agricultural and plantation properties". This is a financial/economical, so why am I not being given parity with NRI in this matter!?

Also, earlier, Prime Minister Hon. Shri Narendra Modiji had stated that everyone will be given a chance to deposit their hard-earned legal money after the 30th December, 2016 deadline. However, now OCI/PIO cardholders are not being given that opportunity. Additionally, it was also mentioned that even one paisa will not be lost for those who have earned it rightfully, but now OCI/PIO cardholders are losing thousands of rupees.

I gracefully welcomed the demonetization policy with open arms, it is a bold and a necessary move. I also promoted cashless instruments to my friends and family. However, it is this sort of unfair post-implementation that I do not support. We all should be given equal chance. It is my hope that this will be considered seriously, and that I, along with my fellow OCI/PIO persons, will be given an equal chance to contribute to supporting demonetization and development of OUR INDIA. No OCI/ PIO discrimination.

Rohit Agarwal

Norwalk, CT

Reason for signing

I am an OCI holder, but a patriotic Indian. I supported the demonetization by PM Modiji. However, it looks like, the bureaucrats are undercutting Modiji's efforts. We hope that our honorable Prime Minister will take a drastic step to remove these anti Indian bureaucrats. and allow OCI/PIO holders to deposit their demonetized currencies.

Dear Mr Modi,

I have been a staunch supporter of your policies which I have always believed are visionary and uplifting for our nation.

But as a British citizen (OCI status), to leave us out of this exchange is a major disappointment and is

non-comprehending and antagonistic to your policies. If you do not change the status of this ordinance, like me many other OCI's will lose trust in you and start questioning your intentions. I hope some sanity and common sense will prevail soon. Regards - Dr S Sharma

Mr Modi,

If PIO/OIC not treated fairly they will lose trust in Indian currency and they will also think twice before investing in India. This will have a huge impact on your dream of 'Make in India'.

[Melbourne, Australia](#)

Reason for signing

We have all contributed to India's development and so I hope Mr Modi will extend the same courtesy to us OCI's/PIO's, in allowing us to exchange old notes until the June 2017 deadline.

[Srikant Ravuri](#)

[Houghton Regis, United Kingdom](#)

Reason for signing

I am signing this because, I think it is unfair to treat PIO/OCI differently from NRI. It was made legal people to carry upto 25K INR by RBI and now suddenly it becomes value less. I had assumed the laws of NRI applied to OCIs as well until, i reached india and was blatantly refused by custom authorities.

I request the authorities to consider OCI at par with NRI in this matter.

thanks.

[Hardev Birdi](#)

[RAINHAM, United Kingdom](#)

Reason for signing

By your action of excluding us from this facility of being to deposit our old notes you have made us feel outcast, saying to us that OCI has no value apart from Visa use. Yet you want us to invest in India and bring our knowledge and new technology back to our motherland to make it great once again and yet you treat us in this unfair and shameful way.

[R Tachkani](#)

[Blackwater, United Kingdom](#)

Reason for signing

I am an UK citizen but born in India and of Indian origin. I have an NRO account in India. RBI has taken my old notes, given me a receipt for it and confirmed it will be deposited into my bank account. Now RBI is saying that they will not deposit the money and that it is only thrash. This is shocking and shameful that the Indian Govt and RBI are cheating me by refusing to transfer my hard earned money. I protest and demand that I get my money back immediately into my bank account from the Indian Govt and RBI.

[E Tachkani](#)

[Blackwater, United Kingdom](#)

Reason for signing

I of Indian origin but am a UK citizen. I have a NRO bank account here and my money is legitimate. I waited in queue for 7 hours at RBI. RBI took my old rupee notes and promised that they would deposit the money into my account. It was false promise because now RBI says my money is thrash simply because I am OCI/PIO. This is not fair. All legitimate money should be deposited into the bank accounts by the Indian Govt and RBI. It is not their money. I want to my money back!

[DR Vinod Kumar Sharma](#)

[Italy](#)

Reason for signing

In fact, me too, a Senior Scientist from Italy (having NRE / NRO account, in India. and holding OCI) not being able to visit India after the demonetization, facing the same problem simply couldn't change the old currency notes in my possession abroad. I simply can't understand that why an Indian born citizen holding PIO / OCI is treated as non-resident and not provided with the facilities generally given an NRI. It is in the above context that I fully agree with the contents of the petition submitted to The Prime Minister of India and Do hope that sooner the good sense will prevail and suitable amendment will be done in the existing rules followed by RBI thus giving a well deserved big relief to all my friends living and working in different countries with leagally acquired OCI/PIO.

All Indians living abroad should not be penalized as we have all earned our money with hard work and paid our taxes before sending to India so either us or our family and friends visit to India can enjoy and contribute to Indian economy, every Indian who visit India always bring some money back to the country where they live, so next time when they visit India, they do not have to visit the bank to exchange money. We all were expecting a reasonably sensible solution from this Govt. GOI should not force us to throw our own hard earned money to trash. Is it logical to spend INR 80K per person, economy airfare from US-IND-US, just to EXCHANGE/DEPOSIT old bank notes and that too for ONLY 25k PER PERSON? Mr PM, FM show some sensibility.

We visit India regularly (2-3 times / year) to see our aging parents (all in 80+ years) and support them. We carry Indian Rupees to our limit of 25,000/person whenever we leave India to help us to use the money till we go to ATM's / bank to withdraw in the next opportunity. Modi ji, please do not forget that we are ambassadors of India overseas and support country of birth in every opportunity and in business deals. We feel discriminated that we are not treated with same respect as NRI's and RBI guidelines do not permit changing our old 500 and 1000 Rupee currency notes. Though this is not a great amount if converted to \$, ethically the rules are discriminatory and we all feel let down. Outside the country we all feel proud that finally India has a PM who is bringing respect to the country. But this this discriminatory actions are letting us down.

I just visited India and I declared that I had Rupees 8,000 at airport. Government of India allow to exchange that money only 5 banks in India, It is not possible to go in person from Ahmedabad to Mumbai just to exchange Rs 8000 when I have limited 2 weeks to stay. You have Reserve Bank of India in Ahmedabad, why such a crazy, unpractical provision allowed. It is simply allowed but intended not to exchange even the due process is done. The exchange should allow at State Bank of India or any branch of Reserve bank. Now I am already here and without my fault I lost Rs 8000.

Dear Prime Minister Modi,

I am writing you this correspondence hoping for some advisement/help. I am a US citizen doing business and living in India on basis of having OCI. I am married to a Gujarati woman in which God blessed me with meeting. I have been developing businesses and

innovations in India in the health and wellness areas of business and construction. I have 2 published patents and numerous TM that I have done in India. I have international research study initiatives that I have helped organize and have been excited on your election to PM of India and the "Make in India" initiative. I will try to shorten such a long story. I have over the years brought my financial resources to India in consideration of the cost of the tasks I would have to fund for my family, the businesses I have created and to the people I have employed in India creating careers and jobs. I have done this legally over the years. Since 2012. I was attending to my father's side as he was battling cancer. I had even brought him to India for potential better answers to his terminal diagnosis. Unfortunately, my father passed from his battle with this disease Dec 6th 2016. I was not able to leave his side in the possibility of a regret of not being there for him at this time. Demonetization had been issued during this event and my choices were made very difficult as I knew what I had here in India to deposit and my father's worsening condition. I had comfort in hearing that NRI's had the option to declare and deposit my Indian currency by March 2017 to June 2017. This now has become an issue for me as I have tried to inquire with the local RBI to do this and they have told me that this facility was not provisioned for OCI or PIO holders. I am feeling a bit helpless and hopeless. I came from the US as quickly as I could and now stand to have my finances lost causing me business problems, the ability to fund my research initiatives on a medical device I created and patented here. I have also been unable to move forward with my family obligations in purchasing our home here. I have limited time and now am asking for your advice/help. I can declare my financials with no problems on my side. It's only the issue of RBI not making this available to OCI that is holding my ability to progress. Although I may not be Indian by race. I am Indian by heart and my family is Indian. I love India as much as I love my native country the United States. I hold an individual pan card as well as pan cards to my three registered businesses. I pay my taxes here and want to do the best in India I can for my family and children as well as the people of India. Please avail some options to me. My Prime Minister of India. Respectfully, Adolph W Carlson

And after that I had gone to RBI, Delhi but it was closed due to Gurpurab. I had to stay in a Hotel in Delhi and then when next day i reached RBI again they refused me to convert my Notes as I am an OCI holder and no more NRI. with the left money from this 4,000 rupees I was able to buy a ticket for a local bus from Delhi to U.P. i was so much harrassed during my visit to India, you can imagine yourself how one can manage the stay and medical treatment with 4,000 rupees only. I visit India as my father lives there. And I keep Indian currency for emergencies. As when my mother expired i visited India with my 2 yrs. Old son, and noone could manage to pick me from Delhi Airport, and we traveled with a Taxi without any money and paid for it after reaching Chandigarh. Without even able to buy a drink for my child. When OCI's we were issued we're told that we will be treated equal to Indian citizens in all economic matters. Indian Govt. must do something for millions of people like us. And not only we Indians are having these Notes but also foreigners who use to visit India frequently are affected by it.

“The Ministry of External Affairs” in India handles OCI / PIO Related matters and concerns.

This also applies for foreign tourists in India. They will address and remedy your concerns.

All OCI / PIO holders are advised to contact The Minister of External Affairs – Mrs. Sushma Swaraj for all their concerns.

Twitter may be a good avenue. Also try all other avenues possible.

The Minister of External Affairs – Mrs. Sushma Swaraj twitter account is:
<https://twitter.com/SushmaSwaraj>

Good will and trust of OCI / PIO holders needs to be maintained by the Government of India. This move of not allowing OCI / PIO holders to exchange old Rs 500 and Rs 1000 notes during the 6 month grace period, similar to NRI's, is short-sighted and unwise. It is not in the best interest of India. India gets a lot of foreign currency remittances, investments in real estate and other securities and business ventures from foreign citizens of Indian origin.

This move by RBI will create bitterness and mistrust among OCI / PIO holders towards the Government of India.

OCI / PIO holders can easily move their investments and business ventures to other countries if they feel they will not be treated fairly by the Government of India. There is a lot of competition for these investments and business ventures as other countries would welcome that.

OCI / PIO holders have an attachment and a bond with India, even after acquiring the citizenship of other countries.

Business ventures by OCI / PIO holders have a greater chance of success because we understand the culture, language and pros and cons of the legal and business environment.

The seeds of bitterness and mistrust being sown by the Government of India in OCI / PIO holders by this move is regretful and will prove to us that we will be powerless in the

future if we invest or work on business ventures in India, in case the Government of India simply decides to takeover our assets and do not treat us fairly in the future.
OCI / PIO holders should get to exchange old Rs 500 and Rs 1000 notes during the 6 month grace period, similar to NRI's.

I went to RBI to change the currency and was told i can't do so as I arrived at 3 pm and the counter is open till 2:30 pm. There was no information on rbi's website about the opening times of this counter. the telephone was not answered when i called to enquire. i was also told that only i can change the currency and no one on my behalf can do so. how does this man expect us to leave everything and queue up everyday to do this task. its impossible for me to comprehend this exercise. i fully detest this move which was unilaterally taken by one man in the largest democracy of the world. i have proof of people taking commissions and changing black money in to new notes. this is a total farce and has misled billions of Indians all over the world. We have been classified as NRI for years. PIO/OCI came only recently. We are PIO but it is silly to make us Overseas Citizens of India as we cannot hold dual passport.

All Banks, Govt Dept, Tax office, etc classify us as NRI , knowing for the fact that our passports are not Indian.

We all NRIs took the word NRI on face value.

Even today in papers they use the term "NRI" but now RBI , without any seance, send people back. We overseas people spend good money to come and contribute to Indian Forex mkt/economy & now treated like dogs.

Diaspora Indians with foreign citizenship and OCI/PIO card holders are being turned away by Reserve bank of India from depositing their demonetized currencies, although govt. had announced that it has extended the date for NRIs to deposit their currencies till June 30th, 2017. However, Diaspora Indians with foreign citizenship after standing outside the gate for several hours and when they reach the gate, they have been told that only NRIs with Indian passport can go inside. It is a major issue to be corrected. GOPIO has now taken up this issue and has sent this appeal to Hon. Prime Minister Modi. Indians who left India to earn their living should not be deprived of their hard earned money because they were not in India to deposit the demonetized notes when banks were accepting the notes.
